**3M™ Controltac™ Graphic Film**

**3M™ Scotchcal™ ElectroCut™**

**Buildings and walls are a huge branding opportunity. With their outstanding reliability, ease of use and creative latitude, INPS can use 3M films to create stunning graphics on these surfaces regardless of texture, size or weather conditions. The world is officially your canvas.**

## 3M™ DI-NOC™ Architectural Finishes

- Film can be applied to a wide variety of surface materials, allowing infinite creativity.
- With the addition of Suede and Dry Wood, there are new patterns that incorporate the latest trends with an industrial and an organic feel.
- The diverse selection of additional unique designs maximizes interior design possibilities.

## 3M™ Envision™ Print Film 48C

- Excellent for textured surfaces like brick or stucco, and smooth walls.
- Non-PVC with all the versatility of 40C.
- For flat or simple curves.
- Easy application and removal.

## 3M™ Scotchcal™ Printed Film

- Endless opportunities to share your message.
- Great for retail outlets.
- Decorative and identification graphics.
- Conforms to a variety of interior and exterior surfaces.

## 3M™ Scotchcal™ ElectroCut™

- Clear, pressure-sensitive film adheres well to flat or simple-curved surfaces.
- Resistant to moisture absorption and static buildup.
- Lays flat for easier assembly.

## 3M™ Controltac™ Graphic Film

- Quickly enhance the overall look and appeal of your facilities.
- Available in 84 colors.
- Surface cleaned and prepared.
- Vinyl applied by 3M Preferred Installer.

**INPS can work with your project to create building and wall graphics for inside and outside applications.**

## Interior Graphics

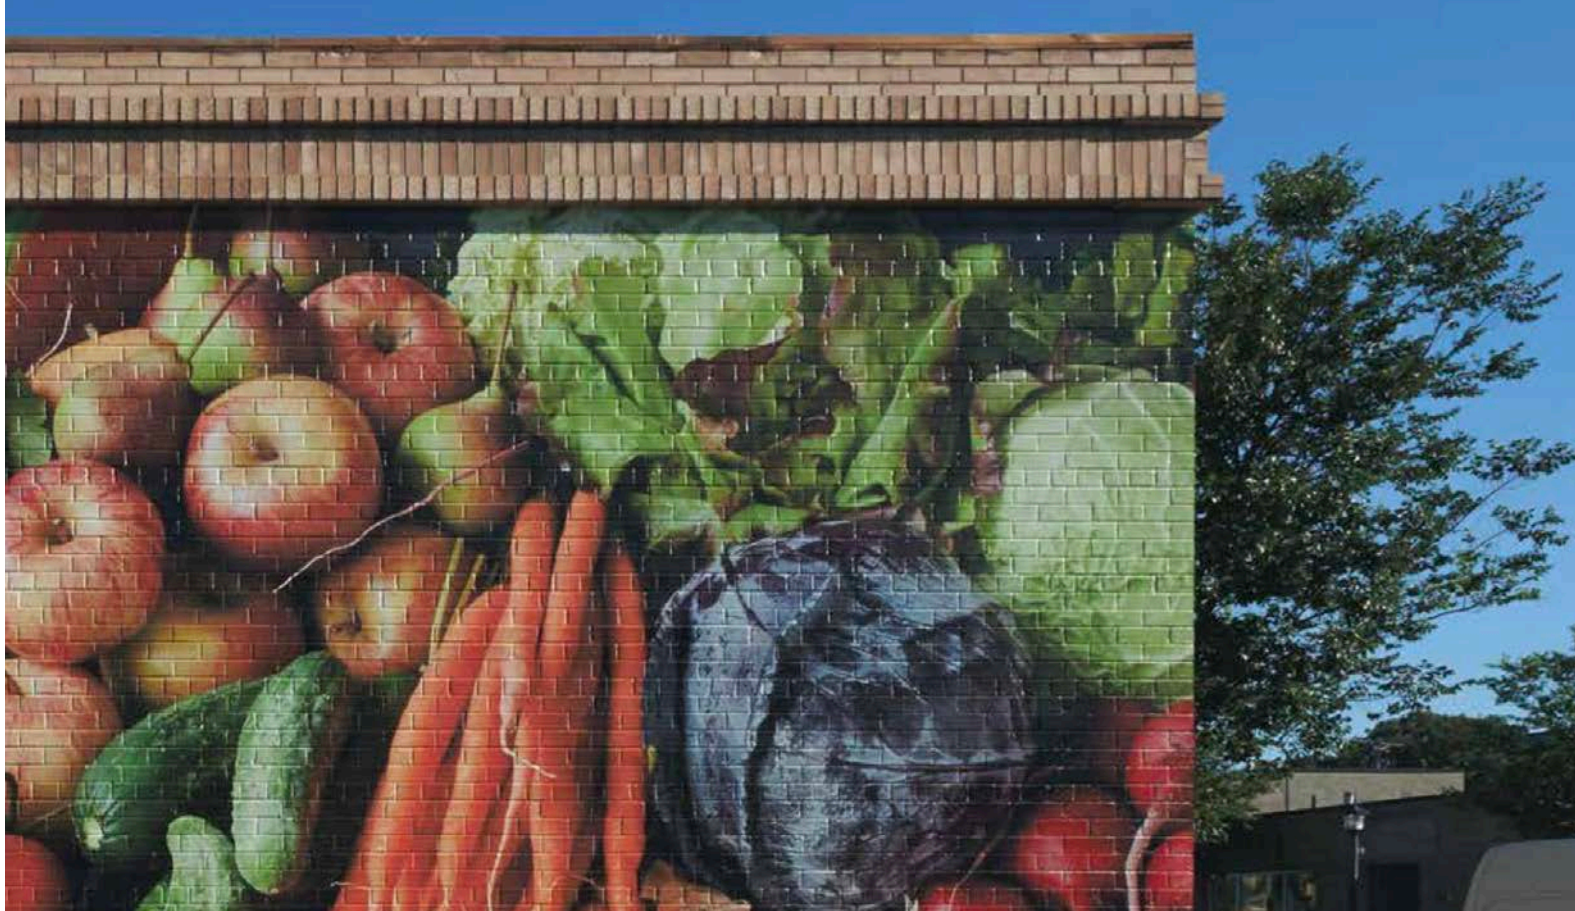

Smooth indoor surfaces are blank canvases that present ideal opportunities to extend, strengthen and showcase branding, or turn those walls into works of art. From printable films and colored films to décor overlaminates, the creative possibilities are endless.

## Exterior Graphics

Refresh building exteriors with graphic films. An exterior wall wrap can extend the experience from inside to street side.

Eliminate more expensive options.

## Graphic Films for Textured Surfaces

A rough surface is no problem for these graphic films. Help your customers get noticed with a wall wrap that fits like a glove, even on a textured wall.

## Architectural Surface Finishes

When surfaces and fixtures need an update, instead of replacing, resurface. At a fraction of the cost, you can use 3M™ DI-NOC™ Architectural Finishes with sleek metal, sophisticated marble and luxurious wood designs to renovate spaces with less downtime, less labor and less waste.

## The Benefits of a Vinyl Refresh

- Vinyl allows for businesses to remain open during renovations.
- The installation is quiet, involves no dust and the clean-up is quick and easy.
- Giving you dramatic results.
