CUSTOM DUNNAGE

Custom Fit Design

Custom Fit Design INPS manufactures custom dunnage components for original equipment manufacturers. The design of these components optimise space while protecting customers parts in transit.

Our customers can collaborate with our engineering and design groups for concept and development of components through prototype to production volumes.

Whatever your requirements we have the solution.

Custom Dunnage Products Include:

- Capacity identification plates
- Custom packaging components
- Electrostatic discharge (ESD) Dunnage
- Industrial racking components
- Industrial storage custom parts
- Large scale formed dunnage parts
- Plastic wear strips

*Dunnage products are made to meet customer requirements.

Waterjet Cutting

Vacuum Forming

A custom fit: maintainable protection for parts, components and assemblies

Molded Urethane

Molded urethane is a highly durable, impact resistant option for protection and transportation of heavy machine parts, glass, engine components, and large body panels. This form of dunnage is commonly used in custom racks but can be applied to other forms of packaging.

Heavy & Thin Gauge Vacuum Thermoforming

Extruded plastic sheet is heated and formed over a mold to create a contoured tray that cradles and protects each specific parts. This process allows for nesting of parts and increases part density. In addition, tray cavities can be formed to carry multiple variations of parts.

CNC Routed Parts

HDPE, DELRIN, UHMW, NYLON and PTFE are some of the dunnage materials that INPS' machines. All parts are made from durable material that is ideal for heavy-duty components. The machining process allows for detailed cradle options.

INDUSTRIES WE SERVICE

DESIGN, MANUFACTURE, INSTALL

International Name Plate Supplies Limited (INPS) provides graphic solutions for interior/exterior facilities, Transit, Rail, Traffic, Fleet and OEM.

55 years of success drives our commitment to sustainability. INPS continues to embrace a 'business partnership' philosophy with our clients. Through business partnership INPS brings your ideas to life.

Your single source OEM solution.

Founded in 1966, INPS Group has facilities through North America and Mexico.

Through the INPS Group of Companies our mission is to be your single source provider. Whatever your requirements; product, volume or quantity, we have a solution. INPS is a versatile and diverse manufacturer and provider of components for numerous industries.

The INPS Group and its affiliates can provide full-scale component acquisitions and design services. We are a supplier to large industry players as well as small niche business. Our success comes from being accommodating while seamlessly integrating into your company's culture.
