

# Providing Solutions

to the Rail, Transit  
and Graphic  
Industries since 1966

Through the INPS Group of Companies our mission is to be your single source provider.

Whatever your requirements we have the solution.

---

Founded in 1966, INPS Group has facilities through North America and Mexico.

Through the INPS Group of Companies our mission is to be your single source provider. Whatever your requirements; product, volume or quantity, we have a solution. INPS is a versatile and diverse manufacturer and provider of components for numerous industries. The INPS Group and its affiliates can provide full-scale component acquisitions and design services. We are a supplier to large industry players as well as small niche business. Our success comes from being accommodating while seamlessly integrating into your company's culture.

sample of the products  
we produce and the  
markets we serve.

## Your Single Source Locomotive Solution Provider

**INPS GROUP has global distribution for the following products:**

- Air Conditioners for locomotives
- Auxiliary Power Units for locomotives
- Sound Damping for locomotive cabs
- Interior Components (Thermoformed, Fiberglass and HPL Panels)
- LED Illuminated Overlays for locomotive control panels
- Anti-Graffiti Film
- Interior Graphics for locomotives
- Conspicuity Tape
- AEI Tags
- High Performance Photoluminescent (HPPL) egress decals
- Low-Location Exit Path Marking (LLEPM) for rail vehicles
- Anti-skid / Safety Walk for Locomotive Safety
- Strategic Sourcing & Engineering Solutions for Freight Locomotives

## LOCOMOTIVE PRODUCTS

### Air Conditioners (A/C)

Our air conditioners for locomotives offer a unique Modular Design for easy operations during the Maintenance or Replacement of a component. Each component is lightweight, offering easier installation and lower labor cost to the installer. This locomotive A/C unit has 72VDC power and no inverter.

## Auxiliary Power Units

INPS IEP (Environmental Products) Auxiliary Power Units allow companies to save on fuel for their locomotive transit vehicles without sacrificing crew comfort. Our proprietary Banana Auxiliary Power Unit is designed to reduce excess idling, save fuel, reduce locomotive engine wear and keep your crew comfortable – a true win-win for everyone.

## Sound Dampening

INPS' Quiet Ride Sound Dampening System reduces noise and vibration inside the cabin environment, making work more pleasant for your employees. This multi-layered panel system can be easily installed inside the locomotive by your staff. Sound Dampening for Locomotive Cabs cleans up the look of the cabin interior and is custom-made to fit all locomotive models. Our sound dampening products are compliant with all current industry standards, are fire retardant, as well as scratch and dent resistant.

## Window Freezes

INPS thermoforms (vacuum forms) window freezes for mass transit vehicle interiors. We can also thermoform wall panels, window panels and stairwell panels for single level trains, bi-level trains and Light Rail Vehicle (LRV) interiors. INPS is able to manufacture custom textures and colors by precise color matching. We manufacture our wall panels according to your measurements and exact specifications, with all cut-outs and future add-ons in mind.

## Fibreglass Components

INPS services our customers with the problem solving capabilities that they deserve. We are continuously developing innovative and maintenance friendly solutions for mass transit vehicles including: Interior fibreglass panels, fibreglass ceiling panels, Window freezes and arc shields. From a CAD drawing, INPS designs a mold and makes a part from start to finish. Options include: decorative laminate and inlay, charging stations, integrated mounting hardware options, integrated metal component options, vacuum formed laminate with infused fibreglass options as well as anti-smoke, anti-fire and low toxicity.

## LED Illuminated Overlays for Locomotive Cabs

INPS' backlit displays on control panels are manufactured with high impact acrylic, laser orrouted to shape with an embedded LED lighting. Assembled, painted and polycarbonate overlay applied. Our control panels are Illuminated with a dimmer switch, for night time readability.

## Interior and Graphics for Locomotives

INPS' Locomotive Division is the leading manufacturer of Interior graphics for rail cars. INPS offers a large range of custom interior components for the International rail vehicle industry. Braille and raised letter plates, braille signage, passenger car labels, passenger safety pamphlets for train cars, laser etched labels, locomotive control panels, advertising frames, instructional and safety signage for new or refurbished railcars. Exterior graphics include stock and custom exterior graphics for passenger cars. INPS manufactures high quality, reflective exterior graphics; from full vehicle wraps to safety decals and name plates.

## Conspicuity Tape

### Innovative Brands:

- 3M™
- Reflexite
- Avery
- Available in a variety of lengths and colours to meet your needs
- Improves vehicle visibility
- Detection at dawn, dusk and at night
- Railcars and locomotives meet the FRA 224 Standard

## AEI Tags

### Local and Mobile Programming

- AEI (Automated Equipment Identification) Tags
- AT5118 Standard
- AT5133 High Temperature
- Programmed
- Non-programmed
- Mobile programming services are available

## LOCOMOTIVE PRODUCTS

### Low-Location Exit Path Marking (LLEPM)

INPS FIREFLY™ addresses the needs of safe evacuation from rail cars and transportation corridors. INPS works closely with many mass transit car builders and transit authorities to design, engineer and manufacture luminous egress systems that work both functionally and financially. Our LLEPM (low-location exit path marking) products are manufactured using the highest quality glow in the dark materials in terms of durability and safety. They are suitable for new or existing rubber, carpet floor coverings and walls. LED-charged Emergency Exit path markings are also available.

## LOCOMOTIVE PRODUCTS

## High Performance Photoluminescent (HPPL) Decals for Rail Car Egress

INPS FIREFLY™ has developed turnkey solutions that include Emergency Signage for Egress/ Access of Passenger Rail Equipment. INPS' High Performance Photoluminescent decals not only comply with the latest industry standards, but have set the bar in HPPL decals. The end result is a durable and easy to clean decal which meet or exceeds rail car regulations providing clear and concise directions in the case of an emergency. In consultation with industry leaders, FIREFLY addresses the needs of safe evacuation from rail cars, buildings or transportation corridors.

## LOCOMOTIVE PRODUCTS

### Window Anti-Graffiti Film

INPS 3M Scotchgard™ Multi-Layer Protective Film 1004 includes four separate layers of optically transparent, pressure-sensitive polyester film tape designed to protect surfaces from intentional and unintentional damage caused by scratching, etching, abrasion and graffiti. Passenger Car window Anti-Graffiti Film allows a damaged film layer to be quickly and easily removed, exposing a fresh protective sheet.

## LOCOMOTIVE PRODUCTS

### Anti-skid for Locomotives

3M™ Safety-Walk™ Slip Resistant Tapes and Treads Series 600 has been certified by the National Floor Safety Institute (NFSI) as providing “high-traction.” A wet static coefficient of friction (SCOF) of greater than 0.60 was chosen by NFSI as the criteria for “high traction” because according to NFSI, floor surfaces maintaining this level of slip resistance when wet have proven to reduce slip-and-fall claims by between 50% and 90%. This mineral coated, slip resistant material features a highly durable white surface suitable to be printed.

## LOCOMOTIVE PARTS

## Strategic Sourcing & Engineering Solutions for all Freight Locomotives

Combining ADP's 30 years of locomotive expertise and INPS's manufacturing capabilities, together we offer a variety of products and services under the INPS Group of Companies. ADP's main focus on products is critical engine components and electrical rotating equipment of which we offer technical expertise, services and/or subcontracting manufacturing.

Our team of 480 professionals located in Canada, United States and Mexico, plus our ability to offer sales and support in Europe gives us the ability of being a true manufacturer with a global reach to service the transit industry. Utilize our total solution approach within your organization. Work with a trusted partner in the industry.

**Let INPS Be Your Single Source Provider**

Through the INPS Group of Companies our mission is to be your single source provider.  
Whatever your requirements we have the solution.
