

INPS TRANSIT Solutions

A DIVISION OF INPS GROUP

Your single source mass transit solution.

International Name Plate Supplies

INPS Transit is the leading supplier, designer and manufacturer of interior and exterior components for transit vehicles. Through our Natsco organization we benefit from virtually unlimited access to a complete repertoire of products, which helps streamline the OEM/end-user relationship.

We offer a full catalogue of existing transit components. Services include: custom component design, engineering and manufacturing. We also offer sample reengineering as well as component retrofit and Installation services. INPS transit acts as a one-stop shop for any solution related to transit vehicle componentry.

Through our limitless in-house and external capabilities and processes, we take all aspects of your project from the drawing board to the transit car.

Quality Assurance

At International Name Plate Supplies Ltd., we are dedicated to providing defect-free world-class products and services at competitive prices. We accomplish this through personal contributions, teamwork, and continuous improvement.

In order to meet our objectives, a management system that satisfies the requirements of ISO 9001:2015 is maintained. We have appointed a management representative with the authority and responsibility to ensure continued compliance. Regular audits by internal, independent personnel and our customers' satisfaction are used as confirmation.

INPS has the responsibility to produce quality products and services, which meet or exceed our customer's requirements.

INPS understands that all documents and products are sensitive in nature and we place a high regard on our confidentiality agreement with our clients.

- Understanding your needs and wants, we can better cater to you and provide exactly what you need
- Onsite with engineering to solve issues and solutions

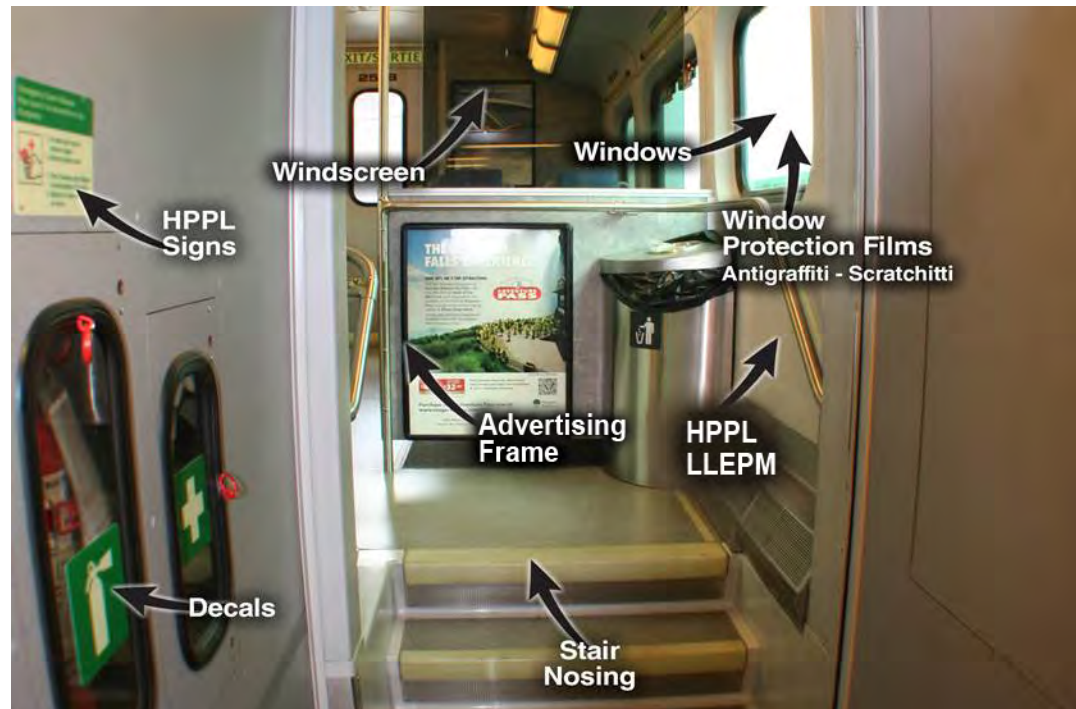

INTERIOR SOLUTIONS

INTERIOR SOLUTIONS

INTERIOR SOLUTIONS

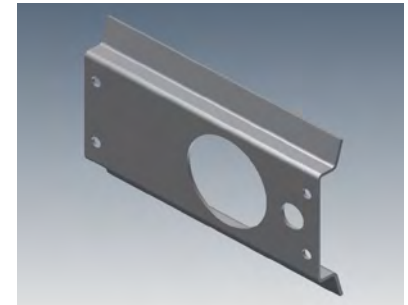

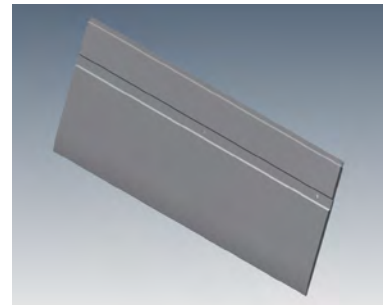

INTERIOR SOLUTIONS

THERMOFORMED & HPL PANELS

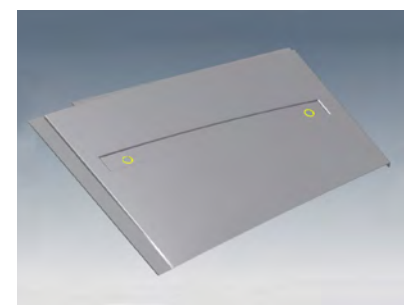

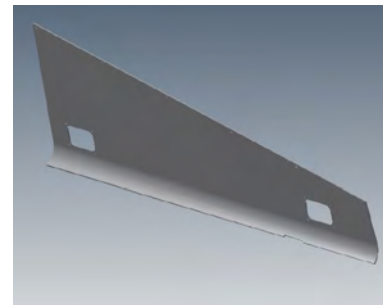

Thermoformed (Vacuum Formed)

- Wall
- Window
- Stairwell
- Lens Pieces

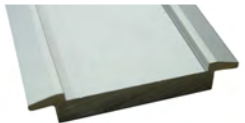

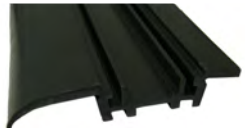

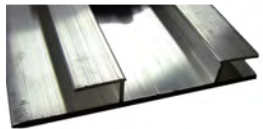

HPL (High Pressure Laminate)

- Ceiling
- Wall

INTERIOR SOLUTIONS

MOLDING & TRIM

Carpet Molding

- Rubber and or TPE Thermoplastic Elastomer (holds carpet down and covers transition)
- HPPL Glow Photoluminescent (Safety)

Specialty Extrusions & Trim

- INPS offers extruded aluminum and various plastic and rubber products.
- We offer both stock and custom extrusions which meet Fire, Smoke and Toxicity requirements for the Transit Industry.

INTERIOR SOLUTIONS

TRIM MOLDING

- Wall
- Ceiling
 - Cover the transition of panels
 - Holds panels in place
 - Angled trim
 - Custom trim
 - Kydex (extruded)
 - Snap concept

INTERIOR SOLUTIONS

WINDSCREENS & WINDSCREEN PANELS

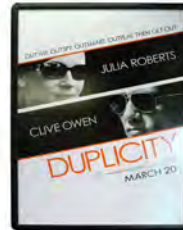

- Privacy screens
- Rear doors and stairwells
- Prevents wind from the door to reach passengers
- Any color and texture to match existing fleet

INTERIOR SOLUTIONS

ADVERTISING FRAMES

- Snap Advertising Frames made from durable aluminum extrusions
- Standard and custom sizes available
- No tools required
- Available in black or silver
- Round or square corner options
- Simply pull back each side, replace your ad and snap each side closed
- Takes less than 30 seconds to change your ad

INTERIOR SOLUTIONS

FRANGIBLE PANELS & METAL FABRICATION

Frangible Panels

- Break away panels
- For emergency tool box, alarms, brakes and door openings

Metal Fabrication

- Interior and exterior panels
- Cut out panels
- Air grill covers
- Skirt covers
- Door skins

INTERIOR SOLUTIONS

WINDOW PROTECTION FILMS

- Anti-graffiti
- Protects window from scratches, shattering and graffiti

Vandalism Protection: Scratch-resistant glass and anti-vandalism film can reduce damage from vandalism.

Visual Comfort: Solar control glass (tinted or low-emissivity) cuts glare and reduces visual fatigue for both drivers and passengers.

Heated glass keeps windows from fogging or frosting up.

INTERIOR SOLUTIONS

WINDOWS & WINDOW SEALS

Thermal Comfort: The use of sealed units and solar control glass (tinted or low-emissivity) improves the thermal insulation of vehicles.

Acoustical Comfort: Laminated glass cuts the transmission of outside noise.

To Standards:

- FRA
- SAE
- ISO
- UL

Window Seals & Rubbers

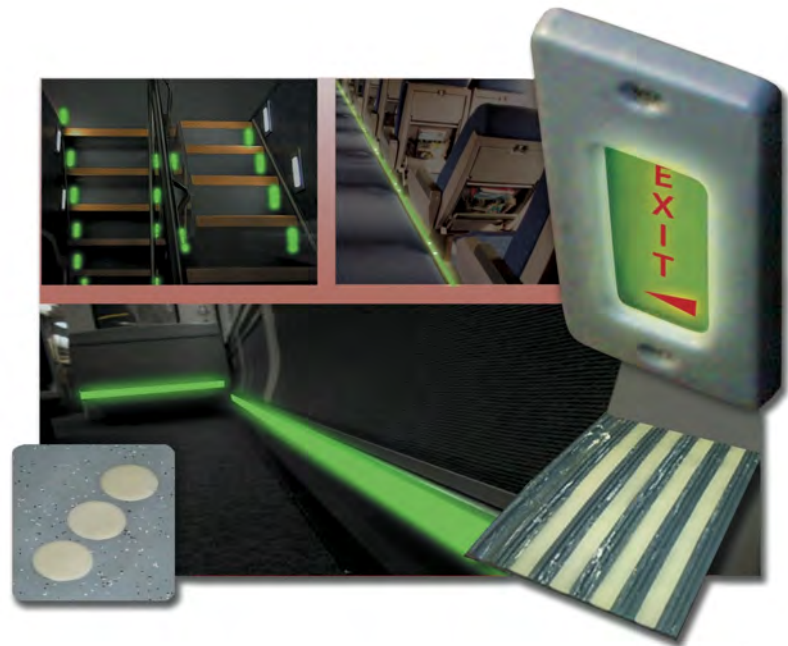

- All profiles

INTERIOR SOLUTIONS

HPPL LLEPM

Low Level Emergency Path Marking (LLEPM)

The INPS team has worked closely with many mass transit car builders and transit authorities to design, engineer and manufacture LLEPM systems that work both functionally and financially.

INTERIOR SOLUTIONS

HPPL SIGNS & DECALS

FireFly™ decals not only comply with the latest industry standards, but have set the bar in HPPL decals.

FireFly™ decals are constructed with the best materials and finished with an anti-graffiti coating and adhesive to fit your application.

Results: Durable and easy to clean decals which meet or exceed APTA and FRA regulations providing clear and concise directions in the case of an emergency.

Choose the name you can trust your life with FireFly™.

INTERIOR SOLUTIONS

STAIR NOSINGS

Stairs

- Nosings

Refresh your existing surfaces with a new skin.
Make old finishes look new again.

Finishes include:

- Wood
- Mirror
- Stainless Steel
- Marble
- Carbon Fibers

...and many more

INTERIOR SOLUTIONS

ANTIMICROBIAL SURFACE TREATMENTS

Studies show that millions of germs exist on high-touch surfaces in trains, planes and automobiles.

Germs can survive on surfaces for up to 48 hours and can be transferred to our hands.

The Aegis Microbe shield has been proven to reduce the counts of dangerous microorganisms on high-touch areas such as stanchions, door handles and arm rests

It can kill up to 99% of germs on contact with its unique mode of action. It remains on guard to Control and Prevent the growth of harmful microorganisms between traditional cleaning and disinfection practices.
